In commenting on president Taft's letter and the situation which it discloses, Mr. Griscom gave out the following

"The methods used to accomplish the defeat of Mr. Roosevelt when his name was before the state committee are now clear to the public.

"I have not the slightest doubt that the action of the state committee will be reversed and that Mr. Roosevelt, if his engagements will permit him to accept will act as temporary chairman of the convention and make the prelim inary speech. Rapid Work of Clearing the Southwestern Property on Mesa.

A great change is taking place in the landscape in the vicinity of the Southwestern general office building. Almost overnight the buildings on the road's property between Wall and Main streets running east and west and Stanton and Mesa, north and south, have disappeared. All of the buildings havbeen wrecked except that on Mesa formerly occupied by a cleaning and dye-ing establishment, and that building will have been razed by Wednesday

The improvement made by the leveling of the buildings is a revelation and when the plot of ground is parked it will be merely a continuation of beautiful San Jacinto plaza. The change will make the general office building of the Southwestern seem at least a block nearer the center of things.

The curbing will be put down around the plot as soon as the block is cleared of debris, but the grass will not be put

down until next spring.

The only spot at variance with the general parking scheme will be that property of the G. H. railroad, which extends from the southern border of the Southwestern's property to the G. H. tracks. If that road sees fit to park its property, the scheme of beauty will be complete. It is believed, however, that the G. H. intends to erect an office building on this plot and this belief is borne out by the fact that it did not cooperate with the Southwestern in its scheme of improvement. Plans have been drawn for the building.

Work on remodeling the old general office building of the Southwestern road on Campbell street, to be used as club building for Southwestern employes, will begin soon after September care of its patients. Dr. W. L. Brown I, the time set for the vacation of the building by tenants. The contract has not yet been let.

From Wichita the line is in operation as far southwest as San Angelo and trains are running northeastward from Chihushua, Mex., to a station across the Conchas river. Between these two terminals the distance is 365 miles and con- | G. H. struction will be pushed with all speed to through service from Wichita, Kas., to Chihuahua, from which point the road is finished for a considerable distance westward.

Construction is progressing rapidly from San Angelo southward towards Del Rio, where connection will be made with the National Railways of Mexico, building northward from Al-lende to meet the Orient at the Rio

made between the Orient and the Youkum-Hawley interests, controlling the Texas Central, the Misouri, Kansas & Texas, and the St. Louis, Brownsville and Mexico lines, by which combination another through short line to the City of Mexico is available.

The Texas Central line, of 281 miles, crosses the Orient a short distance south of San Angelo, and through the Katy connects with Brownsville, offering a direct thoroughfare to the capital of Mexico over the newly completed international bridge at Brownsville. It is possible that joint deliberations between the Orient and the Mexican North Western may result in the determination to combine on one line through the Sierra Madre mountains, one of the most difficult routes on the American continent, The completion of the Orient will open up a vast and fertile territory to building up rapidly. That section has en waiting on rail transportation to take its place among the great agricultural regions of the world.

No Saloons Will Be Allowed at the Big Damsite by the Government.

The vendors of suspenders and collar buttons, who always follow the flag, not to mention the frontier saloon, will not be able to get in on the ground loor at the terminal of the Elephant Butte and El Paso rallroad. It is probable that the point where the new road will branch off from the main line of the Santa Fe, three and a half miles this side of Engle, will be marked by a sign post. When service is established, trains will run from Elephant Butte to Engle and it will be necessary for the people going to the butte to go to Engle and transfer to the branch earth.

Canutillo Townsite Company Buys More—Texas Man Makes a Buy.

Activity in valley lands is centering in the new townsite of Canutillo, N. M., on the Anthony road.

Mathews & Dyer closed a deal Monday afternoon for 2000 acres of land in a body adjoining the holdings of the Ca-nutillo Townsite company. This sale was made to the Canutillo Townsite company, composed of a number of El Paso business men, including maror C. E. Kelly, judge A. S. J. Eylar, judge J. E. Harper and others. The price paid for the 2000 acres was \$63,500. This increases the holdings of the townsite ompany to 3500 acres.

It is the intention to have the entire
